IT TECHNOLOGY APPRENTICESHIP

The perfect way to kick start your career in IT.

Are you: 16 to 23 years old?
Can you: Show Commitment for 1 year?
Do you: Have 4 GCSE's or equivalents, grade C or above?

You will be working towards:

- Level 3 Diploma in Professional Competence for IT and Telecoms Professionals.
- Level 3 Extended Diploma in ICT Systems and Principles.
- Level 2 Functional Skills in ICT, Maths and English (where applicable).

You will learn how to:

- Strip down and repair computers.
- Change computer components.
- Install, configure and update a range of operating systems.
- Troubleshoot and diagnose faults on PCs and simple networks.
- Install and configure peer to peer networks.
- Understand the basics of server networks.
- Build and test websites.
- Test and evaluate computer software and code.
- Troubleshoot, evaluate and test a range of software applications.
